

NILE ONLINE

Fully interactive tutor-led
courses for every step of your
language teaching career

Aligned to the
Cambridge English
Teaching Framework

Formally aligned to the Eaquals
Framework for Language Teacher
Training & Development

'Enriching and mind-opening'

NILE Online provides innovative, interactive, tutor-led teacher training and teacher development you can fit around your busy working life.

'A truly international environment in the comfort of your own study...gives you the opportunity to share your knowledge with colleagues from around the world'

NILE Online courses replicate the classroom experience – and add to it! Using specially-designed features and a wide range of tools, NILE Online gives you the chance to do one of NILE's world-renowned courses from your own home, in your own time.

'The platform is really easy to use. Everyone at NILE is there 100% to help you. There is always someone there guiding you.'

Participating in a NILE Online course only requires a computer with basic internet access. A tutor will follow your academic progress, while a full support team are on hand to help with any other questions you may have.

'It offers strategies for applying knowledge in the classroom. It's really practical – you can apply everything to your own context.'

In keeping with our teaching philosophy, NILE Online mixes theoretical input with practical solutions. All NILE Online courses are aimed at helping you to develop your teaching, and will give you practical ideas and activities you can use in your classroom.

'Each unit offers a wide variety of activities – groupwork, pairwork, presentations, forums, webinars...'

You will not be a passive observer - NILE Online courses are practical and hands-on! Each course contains a mixture of reading and viewing to comment on, activities for you to complete and discussions to take part in.

'Course tutors are internationally-acknowledged experts in the field'

NILE Online has been designed by experts in language teaching and technology, and your tutor will be an expert on the subject you choose.

'If you're working full time, you can find time to complete the units'

Each course consists of eight units and an assignment, which you have a further month to complete. You will have access to course materials for a full six months after the course has ended. Whichever part of the world you are in, you can log on at any time and work at your own speed.

'It's had a great effect on my teaching – and your students are certain to benefit!'
