The course will enable you to develop your English proficiency and improve your awareness of current methodology and materials. This will involve reviewing the principles and practices of English language teaching, looking at recent developments in teaching methodology. Content

Advanced Language Materials and Methodology includes content drawn from some or all of the following areas:

- Language change

- Motivating learners
- Creativity in the classroom
- The role of affect in the classroom
- 21st Century Skills
- Multimedia materials

Specific course content comes from feedback you and other participants give us through pre-course questionnaires, identifying your needs and priorities.
